

## Fit and Healthy SMARTBoards: Adding Interactivity Into Your PE and Health Classes

Do you want to learn about incorporating the SMARTBoard into your PE and Health lessons? In this workshop, participants will learn the benefits of using a SMARTBoard in their classroom as a visual tool for their students. Participants will first have an overview of the features of the board and the Smart Notebook software. Participants will have an opportunity to explore SMART lessons that have been created by other educators and interactive websites that can be used with the board. They will also spend time developing their own lessons and activities to bring back to use in their classrooms. Participants are encouraged to bring a USB drive, as well as lesson and curriculum materials.

**Presenter: Christine Losito** was an elementary classroom teacher and instructional technology teacher prior to working for Western Suffolk BOCES as a staff developer. As a Model Schools program specialist, Christine works with teachers to help them integrate technology into their curriculum. She helps teachers plan lessons and works with students to help them receive the full benefit of technology.
